The Warehousekeep^r: is ordered to deliver to M^r: Thomas Marshall One Bagg of Dollers advised in the 24 Parr: of the Generall Letter dat^d: 20^th: ffeb^ry: 1695 to be put in Chest No. 338 containing 400 oz: and his name being wrote on the outside of the Bagg.

The Lieut. Generall representing to y^e Councill that hee cannot personally attend the buissinesse of the mint soe constantly as it ought to bee done, propounds that a Mint Master bee apointed to take charge thereof, the Coynage of Rupees being setled by Contract with the Minters, soe as it may bee easely managed as ℔ Consultat: of [*lacuna*] date.

Resolved that M^r: Roger Braddyll bee Mint Master.

There being 43 Chests of Treasure receiv'd ℔ Shipp Sampson, whereof 13 Dollers and 30 Ingot[ts.] It is ordered that the 13 Chests of Dollers bee sold as soon as they can conveniently, to pay off our Debts for goods bought, and to carry on our Investments here and at Fort S^t: David.

And that the 30 Chests of Ingotts be delivered to the Mint mast^r: as hee shall call for the same to bee coyned into Rupees wherein hee is Ordered to use the greatest expedition, that they may bee sent to Bengall.

Ladeing of Pepper hither, and bee dispatched from hence with Coast Goods, But they leave it to us to dispose of the Shipp as occassion shall require, and tho it would bee very convenient that She do proceed for Bencoolen to carry Stores, Souldiers and writers, where she will b[ee] a Countenance to the place and will probable find a considerable quantity of Pepper ready, yet It is resolved that she proceed for Bengall, as soon as she can conveniently bee dispatched for the following reasons :—

(1) There is an Interloper there and another expected, and it will be a very great disreputation to the Rt: Honble: Company in the opinion of the natives, if they have no shipp there.

(2) The Agent and Councill advise the want of money, and it is necessary, that as large a stocke bee sent them as can be spared, and so soon as it can bee got ready, and if the Sampson bee not sent to Bengall, the Stocke must bee sent on ffreight by Countrey Shiping.

(3) Thiere last Letter this day received dated 25th: January adviseth their necessity of a shipp for Countenance, and defence of the ffactory. The Rebbell Rajas forces increasing and haveing lately seazed and imprisoned Mr. Sheldon and Mr. Teshmaker at Rajemauld and thô the Rt: Honble Company doe advise by theirs of the 20th: May that two shipps are designed to follow for Bengall, yet their arrivall being uncertaine, It is resolved that the Sampson bee sent theither with all expedition unlesse another shipp shall in the mean time arrive fit to proceed for Bengall.

Enquiry haveing been thereupon made concerning his deportement in the voyage it doth appear (as by the examination after this Consultation) that hee hath been addicted to Drunkennesse and quarrelling (perticulerly at the Cape in one drunken fit atempting the life of Mr: Dobyns and the Shipps Cook with his sword) and his conversation here in this short time proves him so inclined. In wch: respect it is unanimously resolve'd that thô he were sent out by the Rt: Honble: Company for that place yett hee ought not to bee sent theither (where there is already such another drunken man who for that reason wee remove) nor indeed is fit for their service in any other ffactory, and therefore resolved that he have liberty to returne or to continue in India as a ffreeman, at lest till hee shall produce to us an Indenture.

Serrapa being lately come from Wooriar Pollam, hee and the rest of the Marchants being sent for, gave an accot: of their buissinesse there.

Serrapa acquaints that at Woorearpollam there is now 3000 Loomes employed for ye: Comps: Investment, which if they are not supplyed with money they will be supplyed by others (there being severall nations now procureing Cloth) but so long as they are furnished with money the Wooriar hath laid them under an obligation to worke constantly for the Companyes buissinesse. That so long as ye Warr continues between the Moors and Morattas, there is no place so safe as that, being so strong a wood that an Armey cannot enter it. And if Zulpaker Cawne shall now in his passage to Tanjore goe that way the people round about will get into the woods, and then everything will bee very dear.

That the goods now provided at Woorear are better then those brought from thence upon the former Contract, and the Loomes are all framed to a due measure &

number of Punjumes which in Long Cloth and Sallampors are 16 (to) 17 Punjums.

The Marchants being asked whether they thinke it convenient to goe on with the buissinesse at Woorear and in what manner, they reply that Serrapa has settled y^e^ buissinesse well at Woorear, but if others shall offer a fannam more for a piece, the Woorears now employ'd will leave off and worke for others, unlesse they are constantly suppleyed. And if the Nabob goes that way it will bee troublesome and hazerdous. However they think it convenient to goe on with the provission of Cloth at Worear.

Being asked if they could undertake to provide 5 or 6000 Pag^s^: in Cloth Monthly at Woorear, or how much they will undertake to provide there, and in these parts monthly they promisse an answere on Monday next.

Some of the Inhabitants haveing occassion to build and desireing leave to make brickes for themselves without employing any Brickmakers or others now in the Companys employ who haveing declared to the Paymaster that they will notwithstanding goe on with the Companys Contract as formerly; It is ordered that the Paymaster do permitt any of the Inhabitants to make Brickes for themselves, but not to employ any of the Company['s] Workemen, nor to sell Brickes to others without leave.

And the Paymaster reporting that the Brickmakers owe upon the Ballance of acco^t^: Pag^s^: 75 and have two kilns ready for burning for finishing thereof they want two hundred Pag^s^: The Paymaster is ordered to impresse soe much to them.

Ordered that James Robinson be entertained as a ffactor at Yorke ffort, and to goe theither in the next shipp, in the meantime that hee take his Dyat at the Generall Table and bee employed by the second in coppying West Coast Bookes &c^a^:

Cap^t^: John Wallis haveing offerd to sell or let his shipp at ffreight on a voyage for Tonqueen, It is ordered that the Gunner goe aboard takeing two Masters from the shoar to Serveigh and report in writeing the condition of the shipp.

Ordered that the Paymaster doe demand and receive from Cap^t^: Erle the goods and necessaryes belonging to John Hunter writ^r^: who deyed in the Voyage, Selling the same by outcry, and bring the proceed into y^e^: Comp^s^: Cash.

Considering the impediments of y^e^: Trade in Bengall the issue whereof is uncertaine, and the scarcity and difficulty of procureing Cloth on the Coast, It is resolved that all the long Cloth and Sallampor's, brought by the Marchants either here at Fort S^t^: David or Vizagapatam bee sorted and received makeing due abatements proportionably to the worsnesse, and if any of it shall prove soe bad as not to bee fit for the Europe Market or not wanted to fill up a shipps Tonnage the worst may bee usefull for y^e^: West coast or otherwise as occassion requires.

The Leiu^t^: Generall produces M^r^: Edward Fleetwoods Diary of transactions at Ava in persuance of the Order of Consultation dat^d^: 11^th^: September 1695 with translates of severall letters from the King and Prince^s^ of Ava, w^ch^: are referred to the perusall of the Councill in order to the settleing of a method whereby the Trade of that place may be rendered usefull to this, perticulerly for the repaireing and refiting of shipps.

Ordered that William Daurson late Gunn^r^: of the Moccah ffrigat, being reputed an able sober and carefull man bee entertained for a Tryall as Cheif Gunners mate at six Pag^s^: ℔ meñ.

The reasons of enlargeing the Sallaryes of [P]riamong ffactory are, that thô y^{e}: R^{t}: Hon^{ble}: Company doe not in their Generall Letter mention anything thereof, because the state of that ffactory was not then known to them, yet since the Settlement made by M^{r}: Barwell it doth appear that the buissinesse there is of great concerne with the severall frontier Paggers, and requires a person well versed in the Customes and Language of y^{e}: Mallayes as M^{r}: Frith is, and has been long there, and cannot bee content to continue there at his former sallary, so much lesse then the second and third of Bencoolen Councill, and it is for the same reason resolved convenient to bee observed as a standing rule that in case of the decease of M^{r}: Frith or any Cheife of [P]riamong, the Second or third of Bencoolen doe succeed Cheif of [P]riamong without expecting orders from hence.

M^r^: William Fraser read his warehouse and storekeepers acco^ts^: for the month of March last and pays into the R^t^: H: Comp^s^: Cash Pag^s^: one thousand on acco^t^: Goods sold.

The Governour produceth the forme of a Contract concerted with Serapa &c^a^: Joint Stocke Merch^ts^: concerning which the following objections are made.

1^st^: That this contract stops the sales in y^e^: Godowns and consequently we may want money and be forced to borrow at Interest.

2^d^: That there ought to be security that we shall not come to a losse by this Contract.

——*FORT ST. GEORGE, APRIL 1697*—— [15ms]

To the first it is answered.

That the sales of the Godowns have not exceeded fifteen thousand Pag^{s}: a year for four yeares past. This contract disposes of as much in six months time, and then we are at liberty to sell as much more if we can, at the same or any other rate, to them or any other buyer, whereas the Godowne chapmen offer to take off one third part so much in four month's time but are then under no obligacõn of takeing off more. The certain vend of 900 pieces at 18^{pa}: 18^{fa}: a-piece is preferable to the vend of 300 pieces at Pag^{s}: 19 and the merchants delivering the amo^{t}: in Callicoes is equivalent to so much money deliver'd out for an Investment.

To the second.

These merchants have a stocke of five thousand Pag^{s}: and by what they have allready done in the two last contracts promise fair. Wee know of no better or abler men in Towne, and that is all the security which was ever given or can be expected for Investments, But if any of the Councill know any reason why these Merchants should not be trusted on the like terms as other merchants used to be, they ought to declare that it may be consider'd before further contracts made 'tis allso noted that by this Contract there is a better provision made then usuall for security by the monthly paying out money and receiving callicoes.

The Owners of ship Pearle requesting us to spare them six small Gunns to enable said ship to proceed on an intended voyage to China.

Ordered that the Gunner do produce an acco^{t}: of all the Gunns in the Garrison not exceeding Eight hundred weight.

When Narrain was chiefe Dubash & Ramapa Braminy writer, the former received Pag^{s}: 150 a year and the latter Pag^{s}: 96 since the displaceing of Narrain in April last Ramapa hath discharged both businesses without any other assistance then Jango employed for nine months past at Pag^{s}: three ℔ mensem upon which consideration Ramapa did request that he might receive more wages then Narrain had. It is resolved that from April last Ramapa be paid Pag^{s}: 150 ℔ annum wages and five Pag^{s}: a moneth for the writeing businesse in Jentue Malabar & Moratta Languages done by himselfe or other persons imployed by him, till a fitting person can be found out for that service, and that Jango Dubash be paid three Pag^{s}: a month for the time he hath served from the first July 1696 which payments are to be entred in the Paymasters acco^{ts}: as usual.

Ordered that the accomptant do draw out the list of salary due to the R^{t}: H: Companys servants on the 25th: past. And whereas the Accomptant Generall in London doth advise that the salary ought to be rated at nine shillings to the Pag^{o}: and not at rupees 3$\frac{3}{4}$ ℔ Pag^{o}: It is resolved that in our next Generall letter the matter be stated & referred to the R^{t}: Hon^{ble}: Company, but in the mean time the salary to be rated as usuall.

The merchants being sent for and discoursed concerning the proposed Contract they [now] demand twelve ℔ cent allowance upon y^{e}: whole amo^{t}: of p^{s}: 52650 and persisting therein the Councill offered them six ℔ cent but they still persisting in y^{e}: demand of 12 ℔ cent they were ordered to consider further.

To CAP^{T}: JAMES THWAITES COM^{R}:
OF THE SHIPP KING WILLIAM.

Whereas on Thursday the 6th: Instant the day of your arriveall wee did in Consultation declare to you our Peremptory demand of the R^{t}: H: Comp^{a}: Dammaged Cargo, but on monday the 10th: Instant you did in Councill scruple to deliver the same on y^{e}: term's offered you at Trincomolay by M^{r}: Ellis &c^{a}: Whereupon we desired you to make your own proposalls which you have accordingly done on the 13th: Instant, to w^{ch}: on the same day we returned you our answer, whereunto we have this day received your reply wth: some further proposalls which at present seem unreasonable and not to be complyed with as propounded. Thus one weeke hath been consumed, in the meanwhile the R^{t}: Hon^{ble}: Comp^{a}: Cargo remaines aboard your shipp in a Dammaged condition which damage will encrease daily whilest it continues on board, to prevent which and its further risgo upon the sea, wee judge it absolutely necessary that it be brought ashore. Wee do therefore hereby in the name and behalfe of the R^{t}: H: Company again make demand of their Cargo aboard your Shipp, and require that you accordingly deliver the same to y^{e} Order of M^{r}: Francis Ellis and M^{r}: Roger Braddyll whom we have appointed to receive the same, desireing you to appoint your Purser or such other person as you thinke fitt on your behalfe, to keep such an account wth: the said M^{r}: Ellis and M^{r}: Braddyll as is necessary for the Indorsement of the quantities rec^{d}: on the Bill of Lading which indorsements shall be made and your Bill of Lading delivered you.

As to what concernes the charges of refitting and the reladeing of your ship, wee shall readilly comply wth: your terms so far as they shall seem reasonable to us but wee can no longer suffer y^{e}: bringing ashore of the dammaged cargo to be delayed and have ordered Boats to go aboard your shipp now to bring it ashore and so many boats as are necessary daily to attend that service Dated in fort this 15th: Day of May 1697.

[21st] ——*FORT ST. GEORGE, MAY 1697*——

Articles of Agreement Indented Covenanted & Mutually agreed in Fort S^{t}: George in East India this 21st May 1697, between Cap^{t}: James Thwaites Master of Ship King William in behalfe of himselfe & Owners of said Ship of the one part and Nathaniel Higginson Esq^{r}. Lieutenant Generall & Councill in Fort S^{t}: George in behalfe of the Governour & Company of Merch^{ts}: of London trading into the East Indies on the other part Wittnesseth that:—

Whereas by one Charterparty Indented of a ffreightment mad[e] on the Eight of November 1694 between S^{r}: Josia Child of Wanstead in the County of Essex Barronet & Samuel Ongley of London Merchant part Owners of the Ship called the King William burthen 720 Ton or thereabouts and the said Master of the said ship of the one part and the said Gov^{r}: & Company of the other part. The said part owners & Mast[er] for themselves & the rest of the Owners did grant & lett to freight all the Said ship for a voyage with her to be made in trade and warfare to such place or places for such time and under such agreements, Articles and Covenants as in the said Charterparty are expressed contained and referrence thereunto being to be had may and doth fully appear.

And Whereas in persuance of the said Charterparty the said Ship did proceed from London to the Port of ffort S^{t}: George Madrasse in the East Indies where she arrived on the 4th: ffebruary 169$\frac{5}{6}$ and a sufficient Lading being not then and there ready for her, proceeded by order of y^{e}: Lieutenant Generall of India and Govern^{r}: & Councill of Fort St. George for affairs of the said Govern^{rs}: & Comp^{a}: unto Fort S^{t}. David Tevenapatam to take in part of her Lading, and from thence to Vizagapatam to take in other part of her Ladeing and from thence returning to ffort S^{t}. George did there take in the remaining part of her fu[rther] Lading of Goods amounting in the whole to Pag^{s}: 100618: [28 fa: 5^{ca}:] for which the said master signed Bills Lading dated the 21st: Day of October 1696 for the delivery of the said goods unto the said Governour and Company at London and received from the said Lieutenant Generall & Councill their sailing orders dated the 21st: day of October 1696 whereby the said master was ordered to sett saile and make y^{e}: best of his way for the most speedy attaining of the said Port of London in persuance of which the said Mast^{r}: did in the night of the 23^{d}: day or the morning of the 24th: day of October last sett saile and depart from the said Road of Madrasse.

And Whereas the said Lieutenant Generall & Councill did on the 27th: day of December 1696 receive a Letter from the said Master dated from Trincomolay the 18th: day of November last acquainting, That within few days after his said departure the said ship was by a violent storme bereaved of her Masts, Yards, Rigging Blocks and sailes at Yards, and tooke in Eight or Ten foot water in the Hold, w^{ch}: caused him for y^{e}: lightning the ship to heave over some Cables and Anchors and 12 Guns, but by God's mercy the storme at length abateing the ship gott into the road of Trincomolay belonging to the Dutch in the Island of Zeilone, the goods in great measure dammaged (tho the dammage then unknown) and the ship rendred utterly uncapable of performing or proceeding on the said Voyage for London without the assistance of the said Lieutenant Gener^{ll}: and Councill whom he requested to furnish him and send a vessell wth: stores and money necessary for that purpose as by the said letter may more fully app[^{r}].

In persuance and on the credit of which Letter the said Lieutenant Generall & Councill apprehending the ship and Cargo liable to further hazard damage and losse by long lying at Trincomolay especialy the damaged part of the Cargo, and that the said ship would not be refitted in Trincomolay for a voyage to Europe, and therefore it was necessary that both the Ship and Cargo should be brought to Fort S^{t}. George, did hire two vessells and thereon sent severall stores and money for the service of the said Ship the costs and charges whereof doeth amount unto the sume of Pag^{s}: 4779: 25:4 by an account as stated by the said Lieutenant Generall and Councill and allso wth: the said vessells sent M^{r}: Francis Ellis 4th: of the S^{d}: Councill, M^{r}: Thomas Wigmore Sec^{ry}: and M^{r}: Thomas Lovell Factor empowring them to act as Chief and Councill in the aforementioned affaires and

——*FORT ST. GEORGE, MAY 1697*—— [21er]

to deliv^{r}: unto the said Master the said stores and money for the use of the said ship upon terms to be concerted by the said Chief and Councill and the said Master at Trincomolay, but they differing about the termes agreed only so far, that the said Chief & Councill delivered to the said Master only part of the said stores & money amounting to Pag^{s}: 1487: 24 fanams for which they demanded and received a deposite of Diamonds & the said Masters Obligation for proceeding wth: his ship and Cargo to Fort S^{t}. George in Order to the [free . . .] about the delivery of the Cargo and brought [away] the remainder of the stores & money wth: the said hired vessells to Fort S^{t}. George.

And whereas the said Ship King William on the sixth day of May 1697, returned to this Port when the said Lieutenant Generall and Councill demanded of the said Master to deliver the said Cargo, and the s^{d}: Master insisting on severall term's to which as propounded by him the said Lieutenant Generall and Councill did not thinke fitt to agree, refused to deliver the said Cargo till the term's should be concerted.

And whereas by a survey made on the 11th day of May 1697 by the appointment of the said Lieut. Generall and Councill and the said master by George Herron James Howell, William Brooks, Richard Phrip, Joseph Child, William Legatt, George Weoley, Robert Attkinson, William Longgost, the condition of the said ship is reported to be such that though at present uncapable, yet may be rendred capable of proceeding on her voyage for England if furnished with the stores demanded by the said Master which by computation amount to about ffive thousand Pago[das] of which there is a reasonable proba-[bility] that they can be procured within competent time.

And whereas by the said Charterparty it is among other Covenants particularly agreed and provided y^{t}: the said Owners shall dureing the voyage att all times keep the said ship fitted stored and manned in manner equiveilent to such a ship and such a voyage for the preservation and defence of the Cargo, towards the furnishing whereof in India the Govern^{r}: & Comp^{a}: do agree to supply the said master if need require wth: any sume not exceeding two thousand Ryalls which whole sume hath been already paid to the said Master by the said Lieutenant Generall and Councill, before the last departure of the said ship from ffort S^{t}: George so that the said Gov^{r}: & Company are not by any Article of Charterparty obliged to furnish any further sume for the said ships use. And whereas the said master doth declare that he neither hath any stocke of the Owners left nor hath any other means of procureing a further supply then by selling part of the Cargo of the said Gov^{r}: and Company or Diamonds Laden on Freight.

And Whereas by an acco^{t}: dated in Trincomolay the 4th: day of March 169$\frac{8}{9}$ and signed by the said Captain James Thwaites, it is computed that of 1223 bales Calicoes laden on the said ship at ffort S^{t}: George, there are about 680 bales more or lesse dammaged by salt water by reason whereof the said Company may sustaine great losse thereby if not rewashed and recured as they ought to be w^{ch}: cannot be done without bringing them ashore; and about halfe the Pepper damaged and one third of the saltpetre washed away, so that there did not remaine a sufficient cargo for such a ship and consequently there would be about sixty Tons of dead freight if the ship should proceed wth: y^{e}: Cargo as it is, all which damage and losse though the same cannot be computed if brought into an averige between the said Governour and Company and the said Owners will amount to a very considerable sume for the Owners proportion.

And whereas the said master doth produce unto the said Lieutenant Generall and Councill one Paper of subscriptions for severall parts of said ship dated 20th: November 1693 wherein among others S^{t}: John Fleet signeth for one quarter part of the said ship, which quarter part the said master doth affirme and warrant to be then belonging unto the said Governour and Company, and that he the said Master did actually receive the sume of four thousand pound of the Treasurer of the said Gov^{r}: & Company by order of y^{e}: Comittee for y^{e}: s^{d}: quarter part.

[21st] ——*FORT ST. GEORGE, MAY 1697*——

And whereas the said Lieutenant Generall and Councill and the said master haveing advised and duely considered the premisses and the Interest of the said Governour and Company and of the Owners seperately and jointly, thô they don't find any perticular directions in the said Charterparty nor know of any example for proceeding in so extraordinary a case, yet hold themselves obliged [to] act according to the best of their judgements & utmost of their powers for the preservation of the said Cargo and Ship in such manner as may in the most equitable way promote the Interest of the said Governour and Company and of the said Owners.

Now this Agreement Wittnesseth and the s^{d}: master agreeth that he will deliver unto the said Lieutenant Generall and Councill or their Order the whole Cargo belonging to the said Governour and Company now on board the said ship an account whereof to be kept by persons mutually appointed and to be Indorsed on the Bills of Lading, which said bills of Lading are to remaine one in the hand of the said Master and the other in the hands of the said Lieutenant Generall and Councill, and that the said Master will so soone as he can cause the s^{d}: ship to be repaired and refitted according to said Charterparty in manner equivalent to such a ship in a returning voyage to London, by survey to be made by the appointment of the said Lieuten^{t}: and Councill, and that in order to the enableing the said Master so to repair and refitt the said ship the said Lieutenant Generall and Councill will furnish the said Master wth: such stores & necessaries as they can procure, and with such sume and sumes of money as the said Master for that purpose shall demand, he delivering valuable deposites or his own obligation for the same till the said ship be reladen and the amount of the said stores & money not exceeding six thousand five hundred Pag^{s}: in the whole and that when the ship shall be refitted and repaired in such manner as aforesaid be fully Laden and Dispatched for England as she ought to be being in the service of the said Govern^{r}: and Company by Charterparty, In the ladeing whereof the said master shall use his utmost diligence and Expedition and shall be responsible for all unnecessary delays.

And Lastly the true intent and meaning of this [agreem^{t}:] is that the amount of all such sumes of money paid to the said master in India for the use of the said ship shall be added to the amount of the Invoice of the Cargo of the said Gov^{r}: & Company to be laden on the said ship, and be also inserted in the Bill of Ladeing for the said Cargo, The advance on the sumes be hereby agreed to be referred to the adjustment & determination of the said Gov^{r}: & Company and the said owners.

And Whereas besides the said sume of six thousand ffive hundred Pag^{s}: the said Lieutenant Generall & Councill have expended severall sumes of money in the charges of sending vessells and stores to Trincomolay which the said Master doth not allow for such reasons only as shall be by him produced to the said Lieuten^{t}: Generall and Councill within ten days after y^{e}: date hereof. And have allso expended severall other charges relateing to the said Dammaged Cargo. It is mutually agreed by the said Lieutenant-Generall & Councill and the said master that the said charges & any other sume expended by the said Lieuten^{t}: Gen^{ll}: and Councill or the said master concerning the said ship or Cargo as allso the said ships ffrieght & Demorage and all other controversies w^{ch}: may arrise from or concerning the dammage w^{ch}: the ship or Cargo suffered by the said storme or other accidents, is referred to the agreement & determination of the said Govern^{r}: & Company and the said Owners notwithstanding any mistakes or Errors in Covenants or otherwise committed against the rules and practise in like cases between the said Governour and Company and the Owners of their Charterparty ships by any of the parties to these Presents in prejudice of the rights either of the said Governour and Company or the said Owners. In Wittnesse whereof to one part of this Agreement remaining wth: the said Lieutenant Generall and Councill the said Master hath put his hand & seal, and to the

other part thereof w^th^: the said Master remaining the said Lieuten^t^: Generall and Councill have put their hands and the R^t^: Hon^ble^: Companys seal in Fort S^t^: George the day and year first written.

The Pacquetts from the Rt: Honble: Company by ship Sidney and Madrasse being opened were found to contain as ℔ Lists Entred after this Consultation. Allso another Generall letter dated the 27th August 96 relating to Every the Pirat.

The abstracts of the Invoice of Ships Sidney and Madrasse being perused, it appeareth that there is sent by both Ships 160 bales of Broad cloth Lead. cwt. 3,852 : 0 : 18 lb. and 48 chest Silver. Severall of the letters from Bengall have advised that they have more Broad cloth then they could vend before the Rajahs rebellion in Bengall which hath putt a stopp to all trade, and their last letter adviseth that Mr: Sheldon and Teshmaker were Imprisond and all in their Possession seized, twenty thousand Rupees belonging to the Rt: Hon̄: Company and a much greater sume belonging to Armenians and others, so that no silver can be sent to Raja Maul to be coined and tho there hath been reports of the Nabobs intentions of setting up a mint at Hughly yet that is uncertaine and it is agreeable to the Rt: Honble: Companys Orders that all the silver sent out be coined in the mint of Madrasse.

It is for the foregoeing reasons unanimously resolved that the whole Cargo's of both ships be unladen except halfe the Lead, which is to be continued on board that ship which shall proceed for Bengall and the silver be forthwith coined into Rupees.

The Disposall of Ship Sidney and Madrasse ffrigot is referred to further consideration.

Captain Gyfford informing that the Shipp Scarborough an Interloper is come out and bound for Bengall, and will probably be there before any ship can goe from hence, and considering the small stocke they have at present in Bengll: and the great occasions they have for buying goods with ready money (and the rather for prevention of the Interlopers) It is resolved that the Rupees be sent by Ship Anne as ordered yesterday.

The Pacquetts by each ship being opened for their Bills of Lading and Invoices, and the Generall Letters perused, which are the same in both Pacquets. It is ordered that one of them with abstracts of the Invoices be sent by Ship Anne, and all other papers of which there are double coppies.

Ordered that two hundred Pags: be advanced to Raggina &cs: washers for cureing the Rt: Honble: Companys cloth.

There being some of the King Williams Callicoes returned from the washers to be sorted, It is ordered that the same be sorted by Mr: ffraser &cs: sorters and Mr: Ellis and Mr: Braddyll, and that all the Bales be marked wth: the letter K besides the usuall markes, and that the Paymr: do disburse all the charges relating to Ship King Williams Cargo, as well the charges of ye: washing, Beating, Packing &cs: as Boat hire and Cooley vizt: by notes signed by Mr: Ellis or Mr: Braddyll.

Capt: James Thwaites Commander of Ship King William having delivered a Paper (as Entred after this Consultation) desireing goods be sent off equivalent to what more shall be brought ashore. On the one hand it is considered that if Goods be not sent aboard as the Commander desires he must ballast the ship with sand which will be a charge to the Owners. On the other hand our agreement wth: the Commander doth provide that the shipp shall be unladen, and when refitted by survey to be reladen. If goods are now reladen and the ship afterwards prove uncapable by survey of proceeding, wee expose the goods to an unnecessary risgo, and we doubt whether the lading of goods, will not render the Rt: Hon: Company liable to pay demorage from the time of commencement of Lading. Upon the whole It is resolved that we cannot send any goods aboard Capt: Thwaite his Ship as requested.

The 29th Paragraph of the Rt: Hon: Comps: Generall Letter by Ship Sidney dated the primo July 1696 relating to Mr: Edward Tredcrofts being of this Councill having been for two or three Consultations past deferred by reason of the absence of some of the Councill. It is now propounded whether by virtue of said Paragraph he ought to be of Councill or no. And it being objected that ye: word of the said Paragraph [That wee approve of Mr: Darley and Mr: Heath being Entertained in our Service at Bencoolen, and that Mr: Edward Tredcroft is added to your Councill] thô they [do] approve of the entertainment of Mr: Darley & Mr: Heath, yet that the word approve doth not extend to Mr: Tredcroft's, being of Councill, because there is a stopp between Mr: Darley and Heath and Mr: Tredcroft. The question being thereupon put whether it do's extend to Mr: Tredcrofts being of Councill. It is the unanimous opinion of all but Mr: ffraser that the said Paragraph doth approve Mr: Tredcroft's being of Councill and that otherwise the construction is not intelligible to us.

Mr: Fraser doth further alledge that the said Paragraph doth plainly revoke the Rt: Hon: Companys order in their Letter by the King William, wherein it is declared that none are to have vote or suffrage in Councill but those named in the Commission & letter then sent. But it is the opinion of the rest of the Councill that the Rt: Hon: Company did not by that declaration put it out of their power to adde others when they pleased and Mr: Fraser is of the same opinion.

Mr: Edward Tredcroft being sent for and acquainted wth: the Rt: Hon: Companys orders concernd: Hée requests time of giveing an answer, haveing had thoughts of returning home.

Twenty three of ship King Williams men comeing ashore last night between seven and eight a clocke in a massula they were secured upon the Guard and the Councill being thereupon mett this morning and severall of the men Examined, they agree the reason of their comeing ashore was not for want of victualls, but for want of money to buy clothes for the voyage, and that they did not designe to desert the ship but came of themselves to the ffort.

Capt Thwaites being present doth declare that he hath paid each man three Pag^s^: about three weeks agoe to provide cloths and that M^r^: Rouse having promised them another month's Pay, which not being paid on the day they expected was the only occasion of their comeing ashore.

Mr: William Fraser warehousekeeper pays into the Rt: Honble: Comps: Cash Pags: two thousand Eight Hundred on accot: Dollars and goods sold.

Ordered that Pags: 136 be paid to Chittor Narsa being for one Bill drawn by the Governr: and Councill of ffort St. David as advised in their Generall Letter dated the 22d: Instant.

The Merchants having considered what Bales they can bring in by the last of August next they promise that besides the cloth allready brought in, to bring in 150 bales white and 50 bales brown, but will bring in 200 bales white if they can, having allready procured some washers and promise to ℔cure more to wash their cloth. And Iapa Chittee and other of the Chief Merchants promise to go into the Country to see the businesse done.

The sorters delivering their opinions that [the] stained Longcloth and Salampores of the King Wms: Cargo which are thinner then usuall for Blew cloth ought not to be dyed blew, but to be sent home if sound only washed clean and without congee which will be fitt for dyeing in England.

It is resolved that they doe accordingly.

Concerning the disposall of the shipping it is considered.

1. There is not a certainty (thô a fair promise) of getting a sufficient quantity of cloth from the ffort St. George ffort St. David and Vizagapatam Mercts: to make up a competent lading for the Sidney [in] due time to accompany the King William.

2. If the merchants shall bring in a sufficient quantity there remains a double uncertainty of the expected bales of Vizagapatam and Fort St. George. For thô a vessell may be sent to Vizagapatam yet the time of her returne in August and September is uncertain, and thô the King Williams bales are in the greatest part recoverable by washing yet it seemes that there are very few (if any) that have alltogether escaped damage, and therefore must be all rewashed. The doeing of which will wholly employ our washers so that they will not be able to wash the cloth to be brought in by our merch^{ts}:

3. Consequently, there doeth not appear good ground for a dependance on the getting of a compl[ete] Lading for y^{e}: Sidney in due time to accompany y^{e}: King William.

4. And if she stays here longer for a Lading, she cannot be laden till after the monsoon is over that is till after November, which will be five or six months from her arriveall, in which time there can be no other employment for her on the Coast but to make a trip to Fort St. David and Vizagapatam to carry a few goods and fetch a few Bales, the freight whereof will not answer halfe a months Demorage of so large a shipp.

5. If the Sidney go to Bengall it cannot be expected y^{t}: both she & the Sampson will be Laden there for Europe, nor can wee depend upon the Lading of more then one. There must therefore bee a lading secured on the Coast in December or January next, not only for one great ship but allso for filling up the other if not fully laden in Bengall.

6. For which reason thô there may be a sufficient Lading for the Madrasse frigot to accompany the King William, yet that Lading ought not to be spared for fear of a failure in the lading of y^{e}: greater ships, whose demorage (the cast) is [more] then double to the Madrasse.

7. There is no reason to doubt but there will be by October next a sufficient quantity of Pepper at the West Coast for the lading of such a shipp as the Madrasse frigot, thô it may be doubted whether there may be enough for the Sidney.

8. Either the Sidney or Madrasse frigot must go to Bengall, and the other either be laden to accompany the King William, or go to the West Coast and fill up for England, or returne hither.

9. It is plainly most Eligible that the Madrasse frigot go to Bengall and the Sidney be laden & accompany the King William home, but there is an uncertainty in procureing a full lading in the propounded time either here or at the West Coast for so large a ship and in case of a disappointment she will Lye allmost as long upon demorage as if she goes to Bengall, and the Madrasse frigot allso. But if the Madrasse goes to the West Coast her demorage will be shortned, and a Lading of Provisions &c^{a}: from Bengall either by y^{e}: Sampson or Sidney will contribute considerably towards the demorage of one of the larger ships.

For the foregoeing reasons it is resolved that so soone as the Rupees are coined Shipp Sidney do proceed for Bengall, from whence either the Sidney or Sampson do returne by the 20th: of November, or so soone as the change of the monson will permitt, Laden wth: Saltpetre, [Bales] of Cotton, Yarne and provisions for this Place calling at Vizagapatam to take in the Bales then ready, for which either roome is to be left according as M^{r}: Holcombe &c^{a}: shall advise to Bengall, or filled wth: an equivalent number of Baggs of rice deliverable at Vizagapatam. The other ship to follow so soone as she can be Laden, or by the first day of January if they find they cannot fully lade her in due time, that she be dispatched for this Place to be filled up here.

That the Sidney be last laden from Bengall [because] reputed the better sailer and therefore the fitter ship as well for carriage of the fine Bengall goods as for the gaining this Port in case of contrary winds w^{ch}: sometimes happen in the moneth of January.

That the Madrasse frigot take in one thousand or twelve hundred Baggs Saltpetre and proceed for Fort St. David with such stores as they want & we can

[28TH] ——*FORT ST. GEORGE, JUNE 1697*——

procure and take in such goods as shall be then ready and returne hither, from whence to Vizagapatam w^th^: forty Candy of Cotton bought for those Merchants, w^th^: what else shall offer and there take in what Bales then ready & from thence proceed to Priamong and York Fort and fill up w^th^: Pepper for England, or in failure of a full Lading to returne hither by the first day of December.

The reason of not sending the Madrasse Merchant immediately to the West Coast is because the months of September and October are subject to very hard gusts of wind and unfitt for Lading and therefore the ship ought not to arrive there till the latter end of October.

In answer to those two questions sent us by Your Hon^r^: &c^a^: for the better explanation of our report of the survey of Ship King William please to accept the following.

As to the First. Our meaning by those words that the Ship is very capable to performe a voy[age] to England, is not that she is really at present in a sailing posture. But that her Hull is good and the masts, Yards and Rigging she has on board appears to us well fixed and sufficient for her intended voyage.

As to the Second. Wee did not survey any of the perticulars mentioned in said question not apprehending it to be requested by Your Hon^r^: &c^as^:

The Generall Letters from York Fort dated the 22nd April and 22nd May by ship Eagle were read and the severall Depositions concerning ye: death of Simon a Christian slave boy of Lieutenant Alexander Delgarno for which he is sent a Prisoner in Irons on ship Eagle. The Import of which depositions is that the slave boy [fell] from a Galery and was bruised and the bruises adjudged by William Coote Surgeon to be the cause of the boys death. But there is no other evidence to prove that Lieutenant Delgarno threw the boy down but only James Leight saith that Lieutenant Delgarno said he had threatned the boy to beate him, to avoid wch: the boy run away and so fell. And John Smalliedge saith that Lieutenant Delgarno quarrelling wth: him swore I will throw you out of the Galery as did my boy.

For the present It is ordered that Mr: Barwell and Mr: Tredcroft do examine Mr: Delgarno concerning the death of his boy and report the same on Monday.

The Hull of Ship King William having been surveyed severall times by the most experienced Commanders Carpenters and others who do all agree that the Hull is sound and there appearing a rational probability that the stores requisite for the ships voyage are procurable in due time. It is resolved that the ship be reladen wth: a full cargo equivalent to the former Cargo Vizt wth: such parts of the former Cargo as are fitt for Europe and the remainder to be supplyed wth: other goods of the same sorts and in case that the dammaged bales cannot be rewashed time enough [*lacuna*] day of [*lacuna*] that then instead thereof so many other Bales to be reladen as will make up the former numbr: 1,223 bales and the same method to be observed in for supplying the damaged Pepper, Gallingall &ca: [goods] so as to compleat the quantities and qualities so near as may be of those mentioned in ye: former Bill of Lading. But Capt Thwaites declaring he shall not have occasion for the whole quantity of redwood formerly Laden. It is ordered that so much thereof be sent aboard as he shall demand.

Ordered that Pags: 3012: 12, fanams be paid to Capt. Thwaites he delivering an equivalent deposit wth: an assignment in the same manner as on the 28th: June last.

The Lieutenant Generall having observed that there was an undue delay in the Lading of ship King William in October last for England occasioned by Capt. Thwaites takeing so much time in the stowing away Pepper for the gaining of Tonnage and Mr: Frasers undue compliance wth: Capt Thwaites therein, which he could not then prevent, thô often urged to both the dispat[ch] of her Lading. Doth therefore propound to the consideration of the Councill, whether another person ought not to be appointed to mannage the Lading of ship King William as well for the foregoeing reason as for the following. Our dispatches and Pacquetts generally tarry for his Bill of Lading which must go in the Paquett, and he will sign no dispataches till the Bill of Lading is signed wherein he frequently delays either by neglect or for want of observing the orders so

often inculcated for comparing Boatswains receipts w^th^ : the Purser as goods are laden, for want of which if any mistake happens when they come to compare all at last, the re-examination of all spends much time. A late instance in y^e^ : despatch of the Sidney for Bengall. The treasure was all laden on Wensday and Mr. ffrasers Bill of Lading ready written on Thursday and on Friday morning the generall letter and dispatch sent by the Secretary to be signed, when carryed to Mr. Fraser he ordered it to be brought to him when signed by the rest of the Councill, about noon it was carried to his chamber, but he being abroad was sent after him, but he did not sign, but ordered it to be brought to him when att home. The day thus spent till between four and five a clocke then the Bill of Lading came. Charles Ryley having presented a petition and an [accot:] wherein he demands two hundred and sixteen Dollars for salary at the West Coast unpaid and other om[issions] in the Generall Books. It is resolved that ye: [same] be referred to the examination and a report of [the] Deputy Governor: and Councill of York Fort.

The warehousekeepr: acquaints that of a [℔ cell] of cloth brought by the merchants from Fort St. David washed, there are some pieces torne, con[cerning] which Serapa being examined, declares that [as the] said cloth was delivering out, he acquainted [Mr:] Hutchinson that there was torne cloth & would have taken it out but Mr: Hutchinson would [have all to be carried . . . . .] Mr: Hutchinson declares] that he found 22 pieces by accident the cloth not having been examined. It is ordered that Mr: Tredcroft do with the warehousekeeper examine the whole parcell of cloth and make a report of its condition.

Mr: Fraser upon signing the last Consultation declares his dissent against Verona's being approv'd Chief Peon but neither now, nor in former Consultations when each of the Councill were desired to consider of a fitt person, doth he thinke fitt to name another person.

The Boxes containing books, papers & letters sent by the King William in October last being now opened before the Councill, to see whether they had received any dammage and upon view found to have received none, were immediately made up again without any diminution.

The Governour acquainting that he hath sent three times to call Timapa Naigue & by his last message gives this reason for his withdrawing Viz: want of money to maintain himselfe and Peons, and declares his intention to be [to] draw out Airingapa Naigue that they [may] meet and fight and then one of [them would] dye and the other enjoy ye: benefitt of the place. It is thereupon debated what method is to be taken.

1st: Whether wee shall take any notice of the quarrel, or suffer them to act as they please.

2nd: Whether to Order Airingapa Naigue to goe and bring him in by force.

3dly: Or to send some person to discourse wth: Timapa Naigue in order to an accommodation.

It appears plain that they are both inclined to decide the controversy by fight Timapa Naigue offering that hard usage to Airingapa Naigues men on purpose to provoke him, which Airingapa Naigue resents as a disgrace that he can't bear and hath frequently desired the Govr: leave to goe and right himselfe and he now earnestly desires and nothing keeps him quiet but ye: hope of obtaining the chief place at last.

But if Airingapa Naigue shall go out wth: his people which are about 300 here and near, the other will call his friends to his assistance (having not above 150) and that will oblige the other to call in the assistance of his friends allso as

[12TH] ——*FORT ST. GEORGE, AUGUST 1697*——

is usual among the Polligars by w^ch^ means probably a small army of Polligars may be drawn near this Place the consequences whereof cannot be foreseen but ought to be prevented if they can and the rather because the Nabob hath for a long expressed himselfe disgusted and would probably be glad of such an occasion to renew his unreasonable demands.

It is ordered that the following writeing be given by the Govern^r^: in order to an accomodacon Lett Timapa Naigue and Airingapa Naigue look after the watching businesse together w^th^: each One Hundred Peons. I will pay each forty Pag^s^: a month. Therefore lett Timapa Naigue set those people free which he hath taken hold off, which was not well done and then lett him come in safety, Lett them both signe a writeing to stand to the determination of me and the Councill or of their own cast people, and then they may doe their duty and enjoy the accustomary privileg^s^: according to the award.

Paragraph of a Generall Letter from his [Excy] the Generall &ca: Councill at Bombay dated the 24th July 1697.

Wee are much concerned at the peruseal [of your] Consultations to see that so muc[h of your time should] be so unnecessarily spe[nt through] (as it appears to us) a contentious humour that has possest Mr: Fraser, who makes a great deal to do about wee know not what; He doth indeed very unbecoming and very abusively reflect on the Lieutenant Generall and severall of the Councill as if they were a faction sett up to destroy the Rt: Honble Companys interest, and yet wee can't tell what he has to charge them with, be would have all to believe that he has some great designe fully ripe to serve our masters interest only he wants fitt persons at the head of affairs too communicate it too, supposeing the Generall Lieutenant Generall and Councills not worthy to be intrusted wth this great secret what can be the most modest and most charitable constructions of these reflections, but that the Rt: Honble Company have made choice of such persons in the

above stations as are not fitt to be intrusted one hour longer with the mannagement of their affairs, but ought to be dismissed immediately to make way for Mr: Fraser to mount that so a seasonable time may commence for the discovery of those things that will be so benificiall. Wee have indeed seriously considered of what has unprofitably taken up your time, and expected to have found something at last that might have given us some satisfaction, but wee must declare that wee have received none from Mr: Fraser and therefore find ourselves under a necessity for the prevention of further mischief to be of [ye:] Lieutenant Generalls, President Hatsells Mr: Styleman, Mr: Barwells and Mr: Wright opinion, that if Mr: Fraser will not be admonish[ed] but proceed in his obstinate way of distracting your Councills and countenancing a faction (as it seems to us he doth) that tis not consistent wth: the Rt: Honble: Companys intrest in generall nor wth the peaceable Government of Madrasse that he should act any longer wth you in Councill but be suspended and wee order you to suspend him *if* he doth not submitt and reforme.

The late President Yale having sent a letter of this days date (coppy whereof is entred after this Consultation) the following resolves are agreed.

That the sume paid in August 1694 for the Tonnage and Passe of ship George is not more then usual.

That when the late Commissary Generall first filled up the blanks of those Printed Passes the time of their continuance in fforce not being inserted, and they being delivered instead of other usual Passes, the Owners of ships have taken occasion from thence to suppose they were to continue in fforce allwais and therefore omitted to take usual Passes. But it being a generall rule for Passes that they are to continue in force but one year (or one voyage) and to be yearly repea [ted] either those Printed Passes ought not to continue in force more then one year or the owners ought to take other usual passes yearly allso.

That no Printed Certificates be for the future deliver'd to any ships but such as have taken the usual Passes paying the usual Tonnage and stated fees for both Passe and Certificate.

That the owners of ship Diamond be ℔ticularly admonished to cause said ship to take a Passe in Bengall, being gone thither with an old Printed Passe or Certificate.

That the Sea Customer doe before he permit the master of any English ship to goe off in order to saile, produce his Passe before the Gov^{r} : and Councill and receive an order from the Secretary for permission.

That thô upon a true account the late Presid^{t} : Yale hath not received any injury by y^{e} : paym^{ts} : he hath made for Ship George Viz^{t} : Rup^{s} : 400 in August 1694 here and Rupees 400 in Dec^{r} : 1696 at Bombay, yet to avoid any manner of dispute wth : him, Hee be offered a Passe to be in force to the 24th : December 1698. The Bombay Passe being limitted to one voyage which determined in nine months and a Printed Certificate if he desires it gratis.

[2a] ——*FORT ST. GEORGE, OCTOBER 1697*——

To the Hon^ble: Nath^l: Higginson Esq^r:
Lieutenant Generall &c^a: Councill.

When I tooke a Pass from the Hon^ble: Presid^t: and Councill here for ship George, It was then declar^d: to be a lasting one, and that the ship would have occasion for no other (on which consideration I paid much more then was usual for other Passes) and has since been allowed soe to ships Loyall Captain and Diamond and severall others that lately went hence with those Printed Passes dated some years past, and notwithstanding mine was of the same tenour and Date yet t'is condemn'd as uselesse and the R^t: Hon^ble: Comp^s: seal torne from it to invalidate it, thô the master of ship George Henry Harnett charges the Owners of the George with four Hundred Rupees that the Generall at Bombay tooke from him the 27^th: December last for ships Tonnage, besides Rup^s: 12: 7 to others I wish he had taken y^e: ship too and saved me the further trouble of her; But to pay it every six months, I thinke is a severity beyond the Hon^ble: Comp^s: orders or y^e: practise of this Place, as will appear by the Register of ships tradeing of late years from this Port, which would be very hard and a great discouragement to shiping and trade that duely pay Custome and other great charges to the Company, which the trade will hardly bear, I am sure myne will not w^ch: I referr to your just consideration.

Hon^ble: &c^a:

I having long been a Freeman here under the R^t: Hon^ble: Comp^s: and your Government, constantly and faithfully deporting myself according to the Laws and Customs of this Place, paying all due respects and obedience to yo^r: comm̃ads, and having liberty by the R^t: Hon^ble: Comp^s: permission and orders to trade in India and being lately designed on a voyage to Bengall on ship George, of which I am a part owner, I did in a few days after my resolution thereon according to my duty acquaint the Hon^ble: Lieuten^t: Generall therewith who (to my great surprize) told me that the Councill had permitted my goeing on said voyage, provided I gave Bond for three thousand Pag^s: to the R^t: Hon^ble: Company w^th: good security not to correspond or have any dealings with the Interlopers or French either by word or writeing, thô: I have no manner of businesse or acquaintan^ce: w^th: them and am strictly forbidden by his Hon^r: Yales Instructions to me from corresponding or intermedling w^th: them, my buisinesse being only to endeavour to gett a Freight for y^e: shipp, or otherwise to dispose of her or lade her hither w^th: the advice and assistance of the Agent, according to the Comp^s: rules that the ship may not idly run to ruine, wherefore to bind me in so great a sume for a thing I have no thought of or reason for is very hard and impracticable none lately gone thither having been obliged there [to] more then by a Publick order and prohibition. Notwithstanding which that I might not loose soe good an oppertunity of improveing my small fortune

——*FORT ST. GEORGE, OCTOBER 1697*—— [2ᵇ]

for the maintenance of my family I used all endeavours to give satisfaction therein, and proposed severall of my friends (who were so kind as to consent) to be security for me, but they being rejected as I doubt others will, to prevent my great losse and disappointment in not goeing the said voyage having prepared all things for it, and disburst much money thereon and that there may be no scruple left to obstruct me therein. I do hereby offer to Your Honʳ: &cᵃ: my bond for three thousand Pagˢ: not to have any correspondence or dealing wᵗʰ: the Interlopers or French in manner of businesse directly or indirectly, and for my unquestionable Security will put into the Rᵗ: Honᵇˡᵉ: Compˢ: Cash to the amount of two thousand Pagˢ: at the common Interest of the place, or into any other hands your Honᵇˡᵉ: &cᵃ: shall order it, which I hope cannot justly be denyed. The Junkanneer demanding custom contrary to sala [bad] for 16 pieces of Broad cloth which the Joint stocke Merchants were sending into the Countrey & for 80 pieces brown Long cloth which they were bringing in and refuseing (as ordered) to pay anything more then sallabad, the Junkanneer detains them in his meeta thô : demanded by the Govern^r : His answ^r : being that he will demand what he please.

By daily complaints of merchants and others goeing and comeing, it appears that this Junkanneer doth at all his meets demand from 5 to 20 ℔ cent for money and jewells for which they search all travellers and for all sorts of Provisions that Pass to y^{e}: Camp, and the halfe or quarter of the value of Provisions that is brought from the Countrey this way & hath caused an acco^{t}: to be taken of all trees gardens fruits and demands the halfe and allso demands halfe of the Callicoes made by the weavours and hath killed 3 or 4 [men] by beating wth: clubs, who were concerned in the acco^{ts}: of last years rent upon which many countrey Inhabitants are fled.

Orders given for 30 or 40 ffree-guard Souldiers with arms and ammunition to bee night & day ready on command to prevent the Junkaneer's carrying away the Merchants' Cloth from the Meett to Pollimelee.

The Governour having yesterday wrote to Mr: Barwell to bring his family and all the English from the mount, this Evening at nine a clock received a note from him adviseing that as he was comeing wth: his family to town they were stopped by the Junkanneers a little beyond Triblecane and that he would retire to a neighbouring town and await for further orders.

The Governr: thereupon ordered 40 Peons and 30 Souldiers to goe and conduct him to town, but as they were ready to goe Mr: Barwell came to the Gates, being by order of the Chief Junkanneer permitted to come but adviseth that the rest could not come from the mount for want of Coolies.

At the same time came a letter from a servant of the Junkanneer to Ramapa adviseing to a reconciliation. In answer to which Ramapa was ordered to write that when he returned ye: Comps: goods which he had robb'd, His proposalls should be delivered to the Governr.

The Junkanneer hath taken 5 or 600 pieces of paintings from the Painters as they were washing them in a Tancke near Triblecane bounds and carryed them to Ipere mett.

Sarsapa &ca: Minters pay into the Rt: Honble: Comps: Cash Pags: 352: 16: 3 being towards the balance due from them for clearing the account of silver Coinage.

The 59 Paragraph of the Rt: Honble: Companys Letter by Ship Tavistocke ordering her to be Dispatch'd from hence in January or ffebruary next upon a supposition she would have arrived here gone to Bengall and returned hither wth: a good part of her Lading soon enough to be filled up here by that time.

It is considered.

That the late arrivall of the ship renders it all together impossible to comply wth: that order in the time assigned, because she cannot proceed to Bengall from hence before January or February and wee neither have nor can expect goods enough by that time here to lade so great a Ship, or if wee had wee must keep enough for the Sampson expected suddainly from Bengall, whose time will be then out.

But that the intention of the order may be prosecuted so far as can be. It is resolved that the Tavestocke doe proceed for Bengall so soon as the Monsoon will permit and returne from thence wth: a Ladeing of Saltpetre and Provisio[n] and so many goods for Europe as shall be then ready, and if wee shall be in a capacity to fill her up upon this Coast by Septembr: next, th [at] then she be dispatched from hence for Europe if not, that she returne in June or July next to Bengall to be Laden home from thence.

The Generall letters from Bombay dated 27 Septemb^r: and from Surat dated the 13^th: September now received chiefly adviseing the news of Kidd the Pirat & some troubles at Surat occasioned by the new Govern^r: unreasonable imposition both on the English & Dutch. That from Bombay adviseing their intencons of sending the Sceptre and East India Merchant down the Mallabar coast w^th: orders to looke after Kidd, but make no mention whether they sent any supplys to Anjengo. It is thereupon proposed whether wee may depend upon their being suplyed by those ships, or whether we shall send the stores and men wrote for from hence, and resolved that they be sent as ordered by Consultation of the 15^th: November last.

The Governour acquainting the Councill that ship Sedgewicke not proveing large enough for the service she was designed for and that he hath received orders from the Hon^ble: Secret Committee for sending that ship on a voyage to China and so to returne for England, but the time of the year not permitting her to proceed till April or May next Doth propound to the consideration of the Councill wheth^r: she shall be sold or sent on said voyage. The resolution thereof is referred to the time of year when ships do usually proceed for China, and that in the meantime she be sent to Anjengo w^th: the stores & men they wrote for, for the following reasons.

First, the freight of what sent thither & of Pepper backe will defray the greatest part of the charge.

Secondly, the Chambers ffrigot comes from Beng^ll: a laden ship, and cannot probably take in so many lumbring things Passengers and necessaries w^ch: will pester the ship to much.

Thirdly Wee are doubtfull whether wee can possitively order the Commander to call there under an obligation to deliver goods, being freighted by Merchants of Surat and bound for that Port, and if any dammage should come to the ship it may by them be charged upon the ships being obliged to call at Anjengo.

Fourthly, the ship is ordered to depart from Bengall the 14^th: November last, that she might arrive time enough at Bombay to be Laden home by the expiration of her Charterparty time in January next, But it being now the 13^th day of December and the ship doth not yet appear, it is allready so late that wee may not oblige the ship to spend so much time at Anjengo as may be necessary for Landing the goods and men, especialy since M^r: Braborne advises that they have no Boats w^ch: will greatly detard.

F[ift]hly, wee cannot send the number of souldiers & [conicop]lies and slaves required from hence, w^ch: being order'd to be provided at Fort S^t: David, they must either be sent by the Sedgewicke or by another vessell to be hired from thence, because the Chambers frigot cannot spend time to call there.

[13TH] —— *FORT ST. GEORGE, DECEMBER 1697*——

Sixthly, If it shall be resolved to sell the shipp she will sell much better in April next then now, and there is no other way of employing her but to Anjengo.

Ordered that the Paymastr: provide the necessary stores and men for ship Sedgewicks voyage to Anjengo, and the stores provided for Anjengo to be Laden as soon as the ship is in readinesse, that she may be dispatch'd wth: all expedition.

Mr: Styleman produces an account received from Mr: Ellis (absent by indisposition) of the sale by outcry of the dammaged goods belonging to the King Williams Cargo amounting to Pags: 7157: 13.

——*FORT ST. GEORGE, DECEMBER 1697*—— [16TH]

Mr: Ellis being indisposed he sent his acco[t]: of the Callico Godown for the month of November last.

The R[t]: Hon[ble]: Company in the 54 Paragraph of their Generall Letter dated the 16th: April 1697 having given us leave to take the naval stores sent by ship Tavestocke to our own account paying 60 ℔ Cent on the Invoice price, and leaveing it to y[e]: Lieuten[t]: Generall to proportion the Interest of each of the Councill therein, Hee doth offer to each of the Councill an equal share, but they excuse themselves from accepting any share therein for y[e]: following reasons.

First, sixty ℔ Cent upon the Invoice raises the price of the greatest part of the stores so high above the markett price, that wee should be great loosers, particularly the Cordage Invoiced at 40[s]: 6[d]: ℔ [Cwt:] with 60 ℔ Cent is 65[s]: [or Pag[s]: 7 &] 8 fanams ℔ cwt. The [Markett] price of Madrasse for two or three years past hath been Pag[s] five or six by retail, but reckoning the whole at Pag[s]: 6: ℔ cwt (which it never yeild) there will be a certain losse of 18 ℔ Cent out of the Principal, besides wast Interest and charges which cannot be lesse then Ten ℔ Cent more, so that wee should by the Cordage loose at least 28 ℔ Cent certain, because it is certain the price cannot rise. But our losse would be greater in the anchors Invoiced at 48[s]: ℔ cwt: 60 ℔ Cent is 77[s]: or Pag[s]: 8½ ℔ [. . .] whereas the retail price cannot exceed Pag[s]: 6 ℔ [. . .] and for the rest of the stores their Invoice price w[th]: 60 ℔ Cent advance doth generally much exceed the markett price.

Secondly, The proposall made to the R[t]: Hon[ble]: Comp[a]: doth indeed leave the price to them, but doth allso mention our expectation of some profit by it, & their Hon[s]: answer allso doth propound it as an encourgement and kind useage, but the price as stated cannot be understood to be an encouragem[t].

Resolved, that the warehousekeep[r]: do cause the said stores to be sold for the R[t]: Hon[ble]: Comp[s]: account for the most the markett will yield, causeing the account thereof to be so distinguished from all other accounts under the Head of Naval Stores by the Ship Tavestocke, as that it may be rendred apart when all sold.

THE HONBLE: NATHL: HIGGINSON ESQR: LIEUT: GENERALL OF INDIA

MR: ROGER BRADDYLL MR: THOMAS WRIGHT
MR: MATTHEW EMPSON MR: EDWARD TREDCROFT

Mr: Roger Braddyll warehousekeeper pays into the Rt: Honble: Companys Cash Pags: 354, on account goods sold.

Ordered that Pags: 500 be paid to Mr: Matt: Empson Paymaster for defraying charges garrison and Pags: 172: 4: 4: to Mr: ffrancis Ellis for 167 pieces salampores and 168 pieces Long cloth bought for Wrappers.

The sorters having complained that of the Long cloth brought in by the merchants, there was some fine threaded, but so thin as did no ways suit wth: the musters, for which reason the cloth was Embaled wth: a distinguishing mark of No. 1 Y as fitt for ye: supply of the west coast markett, but in the processe of the sorting they find a great part of the cloth of the same quality and so defective in the substance or evenesse as that they found reason to make a further distinction No. 1 ⊞ Y. and at this time there is 100 bales Embaled of those marks, halfe No. 1 ⊞ Y and halfe No. 1 ⊞ Y. besides which they have turned out 300 pieces of Long cloth as inferiour to muster No. 1 ⊞ Y. The Merchants being ordered to appear and able of No. 1 ⊞ Y. and severall pieces of the turned out cloth being brought & examin'd before them, they do acknowledge the thinnesse but alledge that the cloth is made of the due number of threads, & that there is no other sort of thread now procurable, occasioned by the great scarsity and dearnesse of Cotton for which reason the spinners will not allow cotton enough to make round large thread proper for Long Cloth No. 1 & 2.

It is upon a view of said cloth resolved that the sorters do take in all the Long cloth and Salampores brought in by the Merchants vendible in ye: present Europe Marketts at abatements proportionable in their Judgements to the severall defects, for the following reasons.

First, there is reason to thinke that there will be occasion for more Cloth then wee have or can expect for the Lading of the Sidney and filling up of the Sampson if she shall not be Laden in Bengall.

Secondly, the price of cloth in England for severall years past doth not make so much difference in the account of sales between No. 1 & No. 1 ⊞ or lower numbers, as its cost here, they all selling much at a price.

Thirdly, the Merchants have been very importunate to have their cloth returned to them, and promise to bring in as much better, but that ought not to be complyed wth: for two reasons.

First, because they will not be able to bring it in time enough for these ships.

Secondly, the takeing of the cloth at a lower price is a greater punishment to them and will, if any thing can, cause them to make the cloth more agreeable to muster.

Fourthly, the foregoeing reasons are agreeable to the Rt: Honble: Compa: orders for severall years past.

Fifthly, the Long cloth, and Salampores so distinguished by the Letter Y may be reserved for the West Coast markett, in case the ships to be next dispatched shall not want it for compleating their Tonnage.

The Merchants were directed (as they have been frequently before) to cause a few more Punjums to be added to their fine threaded Long cloth and were promised that they should be considered in the sorting.

Berra Timapa having wrote a Letter to the Govr: desireing that Mr: Dutton may be sent to him to write a Petition. It is resolved that he be not permitted to goe.

Generall Letters to the Agent and Councill of Beng^{ll}: to Cap^{t}: William Erle Commander of Ship Sampson and to the Pilots of Bengall all of this date read.

[10TH] ——*FORT ST. GEORGE, JANUARY 169⅞*——

The Lieutenant Generall read his account of y^e^: R^t^: Hon^ble^: Comp^s^: Cash for the month of December y^e^: balance being Pag^s^: 1623: 25: 2.

Generall Letter from Bengall dated 4^th^: March 169⅞ adviseing that they had permitted M^r^: Winder to receive from the Interloper ship severall things sent him by his brother from England, and that he had contrary to his promise Laden aboard the Interloper severall pieces of goods for England which M^r^: Winder had confessed & withall alledge that he had never been guilty of dealing with them directly or indirectly before but was a necessary deligent servant.

The onely matter alledged as culpable being y^e^: lading of severall pieces of goods aboard the Interloper (which was supposed to be returns of the goods he had received by the ship) M^r^: Winder being thereupon examined, doth declare that he never Laded any goods aboard the ship, but only designed to send 3 night rails 1 Quilt and 2 pieces of mulmuls by Cap^t^: Hamond as a Present to his sister, in order to which had sent them to a Dutchman at Hughly to deliver but upon the Agent^s^ &^ca^: displeasure recalled them, and they were not sent: and doth affirm that he never had other dealings w^th^: any Iterlop^rs^: either before or since.

Resolved that M^r^: Winder do not returne to Bengall dureing the Interlopers stay there.

M^r^: Ellis read his acco^t^: of the Callico Godown for the month of December last.

The Generall Letter from Bengall dated the 25^th^ November 1697 adviseing that they have no farther to say to M^r^: ffrancis Davenport then that he has been assisting to the French in bringing up their ships and Vessells, and referr to the registers of Fort S^t^: George for his Crimes, which having been examined by the Register of the Court of Admiralty from whence the warrant was issued in 169⅓ to the Agent & Councill for apprehending and sending him hither. Hee reports that he findeth no entry relateing to the said Davenport, nor is there any coppy thereof or any other evidence except the Generall assertion in the Bengall Generall Letter dated the 25^th^: November 97 Viz^t^: That he has served y^e^: French in bringing up their ships and Vessells Concerning which M^r^: Davenport being sent for and examined. Hee doth confess that he Piloted a French ship over the braces and into Cucoloo River to save his own life, having taken his Passage from Surat on her, and the ship was taken with a storme in Balasore road wherein she lost all her anchors and doth deny ever to have Piloted any other French ship or Vessell since the warr between ffrance and England nor did he ever receive imploy Pay, promise of pay or gratuity, only had his Diett twelve months in their Factory which they gave him out of Civility.

It is referred to further consideration after wha^t^: manner M^r^: Davenport is to be dealt with.

Resolved that a Generall Letter be wrote to the Governour and Councill of Negapatam acquainting them w^th^: the circumstances of y^e^: Japarra ship brought from Negrais & referring the Disposeall of the Ship and Cargo to them.

The Examination of the Quarrel at M^r^: Kennedy's House was reported by the Choultrey Justices and read.

Ordered that Copy of the Books of Letters received and sent Ending ultimo December 97 and a Copy of the Diary and Consultation Book ending this day be sent home to the R^t^: Hon^ble^: Company by ship Sidney.
